

Beary Landscaping Acquires Sun Valley Landscaping in Midwest Expansion

September 10, 2026

LOCKPORT, IL - September 10, 2026 -

Beary Landscaping, a commercial landscaping and snow management company headquartered in Lockport, Illinois, has announced the 2026 acquisition of Sun Valley Landscaping, a landscaping and maintenance firm with an established presence in suburban and commercial property care across Indiana. The acquisition strengthens Beary Landscaping's operational capacity in the Indiana market and expands its ability to deliver year-round landscaping and snow management services throughout the region.

Sun Valley Landscaping brings a team of skilled horticulturists, landscape technicians, and winter service professionals to the Beary Landscaping organization. The addition enhances Beary Landscaping's capacity for year-round landscape maintenance, seasonal enhancements, hardscape planning, and snow and ice management, adding both personnel and regional expertise to its growing operational footprint.

"Bringing Sun Valley Landscaping on board is a key milestone in our long-term growth strategy," said Brian Beary, owner of Beary Landscaping. "Their team shares our values of professionalism, attention to detail, and a customer-first mindset. This merger enables us to deliver broader geographic coverage, deeper expertise, and greater staffing strength while preserving the high service standards our clients expect."

Beary Landscaping was founded in 1985 and has operated across the Chicagoland region for more than four decades, maintaining a workforce of more than 500+ trained professionals and serving a broad base of commercial and multi-family residential clients. The company offers a comprehensive range of services including lawn care and landscape maintenance, seasonal color enhancements, snow and ice removal, residential and commercial landscape construction, tree and arbor care, landscape design, and landscape lighting. Its service model is built around year-round property management and dedicated client support across all locations it serves.

The company holds memberships in the Illinois Landscape Contractors Association, the National Association of Landscape Professionals, and the Snow and Ice Management Association. Its work has been recognized with the Better Business Bureau Sign of Excellence Award and with Unilock Awards of Excellence for hardscape installation in Illinois and Indiana.

The acquisition of Sun Valley Landscaping represents a continued effort by Beary Landscaping to expand its geographic reach through the integration of established regional firms that share its operational standards and service philosophy. Indiana represents a growing market for commercial landscaping services, and Sun Valley's existing client relationships and field team provide an operational foundation for expanded service delivery under the Beary Landscaping organization across commercial and multi-family property segments.

Beary Landscaping currently operates out of multiple locations across Illinois, Indiana, and Wisconsin, including offices in Lockport, Arlington Heights, Aurora, Brookfield, Elkhart, Lake Station, and Kenosha. The addition of Sun Valley Landscaping's team and service area deepens the company's presence across the Indiana market while adding capacity that supports its broader Midwest growth strategy.

"As demand across our region continues to grow, we are confident this acquisition empowers us to serve clients more efficiently and with greater consistency," said Beary. "Our mission remains unchanged. We protect our clients' properties, reduce risk, and provide dependable year-round peace of mind."

Sun Valley Landscaping will continue serving its existing clients throughout the transition period, with account coverage and scheduling handled by the same field teams currently assigned to those properties during that period. Further details regarding the operational integration, including service contacts and administrative processes, will be communicated to existing clients as the process progresses.
